

## Bedtime Story for the Little Ones

UNCLE WIGGLY AND THE HEATLESS DAY.

By HOWARD R. GARR.

UNCLE WIGGLY LONGER, the nice bunny rabbit gentleman, was out in the yard back of his house, stumping his little hind legs out of the clinkers and he was singing a song. It went this way: "I sit my aches and I eat my bread. And if they wish, I can do more than that."

I will stand upon my toes. And I'll twinkle my pink nose. And when it's warm I'll go without my coat."

"Well, maybe you'll have to do something else," said a voice on the other side of the fence.

"That's what that who are you?" asked Uncle Wiggly, hoping it was not the bad old Kesselski.

"It is I, your old friend, Grandfather Goosey Gander," was the answer, "so have no fear."

Then Uncle Wiggly, who had no fear, said he asked:

"What else must I do to help you, besides eating cornmeal bread and sitting my aches?"

"You'll have to go one day without having any coal at all," said Grandfather Goosey Gander. "We must have the coal for the stove that will keep the house warm and that means, one day each week we must have a heatless day."

"No fire at all?" asked Uncle Wiggly.

"No fire at all," said Grandfather Goosey. "We can do that much, I guess, if the real boys and girls go without lollipops to buy their lollipops, can't they?"

"To be sure we can," said Uncle Wiggly. "I'll tell my muskrat friend about it. He'll let all our fires go out and we'll wrap up warmly and have a heatless day."

"That's what I'm going to do," said Grandfather Goosey. "I just read about the heatless day in the paper and I'm sure the boys and girls will do it."

"So will I as soon as I have these aches lifted," said the bunny rabbit.

"What's that?" asked the muskrat.

"With a nice full of clinkers that he had saved from the day by sitting by the fire, he was so hot that he was not throwing away this good stuff for the fire as he used to, Uncle Wiggly went into the house and he called to Nurse Jane.

"What's that?" asked the muskrat.

## WALL ST. BETTER LOOK OUT SAYS UNCLE LARK

Retired capitalist is ready to start life all over again.

(From Thompson, Ga. Times)

Uncle Lark Farley, who has personally recommended Talcie to anybody, both he and Mrs. Farley have gained several pounds and their health generally is improved.

Uncle Lark needs no introduction in this country, but as the Times has some few readers abroad we'll tell them who he is. Away back in the 17th century, he was a poor country boy, who was too delicate to work on his father's farm, opened up a little country store which he operated successfully for thirty-five years, losing only \$15 in bad accounts during his entire business career. Finally his health became so good that he decided to give up his business. Then he came to Thompson and soon afterwards organized the Bank of Thompson, of which he has been the Financial Backer ever since.

Two months ago, Uncle Lark and his wife commenced taking Talcie and now he says that his stomach is in the very best condition and he knows how to live and how to be very healthy. He is confident that another month's treatment with Talcie will entirely restore his health, which he lost in childhood, and if he does, believe me, Wall Street had better look out for a man who can make the fortune of Uncle Lark with his health, what will he do as a well man? Uncle Lark is known as a Retired Capitalist, but he says he is now a younger man than when he was a country boy, and he is now ready to start life all over again.

Talcie is sold in El Paso by Kelly & Fellard Co., Inc., and by the Drug Store, under personal directions of a special Talcie representative. -Ad.

The young lady across the way says the reason there is such a demand for machine guns is that they simply can't turn them out fast enough by hand.

## The Secret of Growing Queenly Hair

INQUISITIVE—Soap does not remove from the scalp all the fatty accumulations which ought to come off. These accumulations prevent the hair from breathing. Soap dries out hair and makes it brittle. Use this for a glorious head wash and a perfect economical cleanser. Use a teaspoonful of egg in a half cup of hot water. Apply this cream rub, rub, rub and rub it in thoroughly, every day. Every blemish will disappear quickly, and your hair will grow more luxuriantly and will come true. It never fails to give a queenly, adorable, extraordinary tint and purity to the skin.

LONGING—You will never again ask yourself why you "have such a poor complexion" if you will be sure to use the formula I give you here. You'll wonder why other women "have such poor complexions." Go to the drug store and get one ounce of salicylic acid and one ounce of salicylic acid. Mix with two tablespoonfuls of glycerine in one pint of water. Apply this cream rub, rub, rub and rub it in thoroughly, every day. Every blemish will disappear quickly, and your hair will grow more luxuriantly and will come true. It never fails to give a queenly, adorable, extraordinary tint and purity to the skin.

Blackheads Vanish.

BY VALENSKA SURATT

THE surest way to make the hair grow long, silky and beautiful is the easiest way. The following formula will actually compel your hair to grow faster, longer, and with a superb gloss of life and vigor, than anything else known. You can do it as thousands of others have already done. A few days' use of this formula, which I gladly make public here, will convince you that what I say is right. Not half of its wonderful work has been told. Just try it. Hair will stop falling, thin spots will fill in, and your hair will be the envy of your many friends. Add one ounce of beta-quinol to a half pint each of egg run and water (or a full pint of sweetbush instead), and mix thoroughly. Use this mixture liberally every day. It is not oily, it is very pleasant to use. You will find it exceedingly economical.

Bertha T.—Here is a wrinkle formula which has never failed to do perfect work. You can make it at home in a few moments, and it costs less than any wrinkle treatment you can get at the stores already prepared. Get a two-ounce package of potato, and mix this with one tablespoon of glycerine in half a pint of water. Apply liberally every day, and the skin will grow more plump and deep lines, crow's feet and other large and small wrinkles will gradually fill out and vanish. You will not need to use anything else for wrinkles.

NATHANIEL POLYCODDLE'S INVENTIONS.

Copyrighted—E. L. Adams. (George Bingham.)

NATHANIEL POLYCODDLE, the famous inventor, sat in his study listening to the duck falling and turning over in his mind the various inventions which had made him what he was. One by one he reviewed his offerings to humanity—the collapsible chicken clock, the jumping cushion, the reversible "under shirt" and other labor saving devices. Then his masterly intellect turned itself upon the intricacies of his next offering, designed especially for the boys in the trenches—the marvelous combination periscope, which at a moment's notice could be turned into a snoring fork or a sandwich.

Suddenly a shrill scream rent the air. Nathaniel Polycondle sprang to his feet, tugging at the tassel on his distinguished brow. Into the study burst Marcella Polycondle, presenting a moving spectacle of excitement.

"Nathaniel, she moaned, "fall is lost! The fire is out! What shall I do?"

But the great inventor was a man of true grandeur. In the race for the national committee against the present state chairman, Cecil A. Lyon, it was announced today.

Judge J. T. Sweeney today appointed Mrs. D. L. Alvarez administratrix of the estate of Reuben Richards, deceased.

Mrs. Jessie Shely, inspectress at the Custom office, was badly burned at her home on Virginia street yesterday.

The chamber of commerce last night debated public matters. Army authorities have misrepresented this locality and current information will be sent Washington. A. P. Coles brought the matter of county roads to the attention of the body.

J. D. Milton, formerly chief of police of El Paso, but now a ranger in Arizona, is here visiting.

J. S. McClure, of life of Palm Creek, Okla., are in the city for a few days' visit with T. R. Jones, general manager of the Union stock yards.

Republican primaries are to be held tomorrow night and every Republican holding a post tax receipt or exemption certificate is urged to vote.

The territorial convention has elected delegates to the Chicago convention from Arizona for Roosevelt. Strong resolutions were adopted against joint statehood in any form of the national territory.

Friendly relations are said to exist between Mexico and the United States. The papal delegate from Rome crossed the border here today. It marked an important date in the history of Mexico.

## INTEREST RATE TO ALLIES

IS RAISED TO 5 PERCENT

Washington, D. C., March 8.—The interest rates on loans to allies has been raised from 4 1/2 percent to 5 percent as a result of the recent increase in the rates on certificates of indebtedness from 4 to 4 1/2 percent.

## Little Bobbie's Pa.

Being a Short Discourse About Ma's Reading Club.

BY WILLIAM F. KIRK.

OUR reading club is coming here tonight, and Ma to Pa.

That is too bad, Pa. I was going to talk you & Bobbie to see a moving picture about the missing Link, sed Pa.

We will find out about the missing Link sum other nite, sed Ma. Tonight we are going to read from the poetry of Sir Lord Byron, sed Ma.

You picked out a Big Lees guy, all rite, sed Pa. I will stick around & see how you ladies get along.

I don't want you to try to run this reading club. If you stay here please keep still & let the ladies read these papers & recite without interrupting them, sed Ma.

Pa promised he would be good, but when the ladies got there Pa started crite in talking. Old Kid Byron batted three hundred all his born days, sed Pa. He was a speed boy from birth until he died in Australia, sed Pa.

I always said he died in Greece, sed one of the ladies.

I wouldn't bet on where he died, sed Pa.

Wod you be willing to bet that he isn't living? sed one of the ladies.

"Yes, I know he is dead, sed Pa. The boys' mind off you & me, especially me, sed Pa, & then he rubbed his shin sum moar."

I hope they will cum to our house often so Pa will talk me out to the movies.

## A CREAMY LOTION

MADE WITH LEMONS

Prepare a quartar pint at about the cost of a small jar of common cold cream.

When this home-made lemon lotion is gently massaged into the face, the hands and arms, the skin naturally should become soft, clear and white, and the complexion dainty and lovely.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes? But the world is full of bringing out the reason, the freshness and the hidden beauty! But lemon juice alone is acid, therefore irritating, and should be mixed with a cream or oil.

DR. STOUGH'S SUBJECT IS "TAKING LID OFF OF HELL"

At the Y. M. C. A. men's meeting Sunday afternoon at 3:30 o'clock Dr. Henry W. Stough, who is heralded throughout America as second only to Billy Sunday among American evangelists, will be the speaker. His subject will be "Taking the Lid off of Hell."

Dr. Stough, in his address to the League club Friday, stirred a great crowd with his message concerning the cleanup in El Paso. Dr. Stough is at present on a tour of the Y. M. C. A. work. He has also been the real leader in many of the recent city cleanups in all parts of our country.

Frederick B. Stough, "The Singing" will take place, directed by Alfred O. Kuhn, army Y. M. C. A. camp director. Seated in the front row show will be at the piano. Some special instrumental music is being planned.

All the men of the community are being urged by secretary W. A. Young to come to the Y. M. C. A. There is no admission charge for these Sunday afternoon men's meetings.

## NOTE LEVERAGE

ROOFLESS MOUTH CLEAR LEVERAGE NILL

## The Advantages of Roofless Plate

1. As the part next to the gum is of very soft rubber, it gives in chewing, as the teeth teeth, thereby enabling you to eat food impossible with the old style plate. You simply grind your food with the old style plate. You cannot chew it.

2. As the roof of the plate is clear, it can be put in immediately after extraction and the plate settles with the gums as there is no hard ridge in the roof of the mouth to hold it back. When these plates are put in immediately after extraction and "set" with the gum, of course there is no plate in the world can come anywhere near the fit of these.

3. Naturally they can be made to fit any mouth—and mouths that cannot wear old style plates—on the roof deep, shallow, flat, is not taken into consideration at all.

4. They have a 100 per cent better suction—soft rubber as against hard. This as paper against the one-fourth inch thickness of the old roof plate.

5. Comfort, taste, freedom from voice interference, and many other advantages that will suggest themselves to you if you will look at the diagram. Teeth extracted in the morning, plates delivered the same day. Showing footplate between the teeth, exactly the same as in the natural teeth.

Transparencies shows patented attachment of these teeth—exactly the same "pivot" crown is used as on the natural root. No "pin" rubber—your gums grow exactly as your natural teeth.

THIS COST is no more than any first class dentist will charge for old style plates. Come in and let us show you this plate—you will appreciate its many advantages. NOTE—See our new "Removable Bridge Work"—it is exactly half cost of fixed bridges and much more sanitary. We are the only makers of this plate in the Southwest.

## GERMANS PRINT A 'DOPE' SHEET

Call It 'Wireless Information'; Purpose Rousing Mexicans Against U.S.

That the United States oil tanker Santa Maria, owned by a Philadelphia firm, was sunk by German submarines off the coast of Ireland last week, is the substance of a story printed in "Informaciones Inalambricas," a German propaganda newspaper of Mexico City, copies of which are being received in Juarez. "Informaciones Inalambricas," which translated into English means "Wireless Information," is edited by Carl Duma, and is published at No. 24, Calle 14 de Setiembre, Mexico City.

Regarding the reported sinking of the American owned tanker, the story, which was torn from the German newspaper, was by the "German News Service," stated that the steamship was torpedoed by a German submarine, but that all members of the crew were saved.

Has Ad. German League. The newspaper contained the announcement of the existence of the "League of American Governors," organized by A. Lohr at Second Congress, 21, Mexico City.

The newspaper carried a story that the German have invaded Siberia, and that, by the aid of former German prisoners who had been held in the American army, they were planning a German invasion from the west.

Another story is to the effect that officials at Washington are alarmed at the anti-war feeling of the American soldiers now in training. It intimates that revolts have occurred among American soldiers.

Claims Man Lost a Mexican. Mexican citizens are being sacrificed by the American government, says the paper, in an attempt to arouse feeling against Americans. It asserts that Lucio Ramon, a member of the anti-war feeling of the American soldiers now in training, was taken by the Tuscana was torpedoed, was a citizen of Mexico.

In a shrewdly worded editorial, it asserts that Germany is not combatant, and should be treated as such. It is best of intentions so far as Latin American countries are concerned.

The sheet contains a number of display advertisements, practically all signed by German owned firms in Mexico City. It also advertises for sale a number of pro-German books, including one giving reasons why Latin America would be benefited by the winning of the war by Germany, one giving the life of von Hindenburg, and many others of the same type.
